

1000 - Easy-Tak – SUPERDOTS

Product Description

EASY-TAK is a translucent coloured, pressure sensitive; hot melt adhesive exhibiting very low tack, formed in varying dots sizes. EASY-TAK offers easy peel without substrate failure and will remain peelable on most common substrates.

Typical Uses

EASY-TAK has been designed for bonding self-adhesive inserts / videos / gifts for magazines. Credit card fixings as well as for palletisation / posters fixing / arts and crafts. EASY-TAK is used for direct mailing / print finishing / product assembly & security. EASY-TAK has a very low tack and is easily peeled off most substrates. It can be used as a temporary protection pad on materials that require protection from scratching etc. EASY-TAK can be removed cleanly and easily from most substrates without substrate failure or staining.

Benefits

- Repositionable and Peelable
- Transparent (in thin films)
- Easy to apply
- Very Low Stain
- FDA Approved for indirect food contact

Methods of Application

EASY-TAK can be applied through our bespoke box dispenser or via our automated high speed system

Typical Adhesive Characteristics

Colour	Translucent colourless
Temp resistance	-15 to 65 ⁰ C * See Below
Softening Point	Approx. 74 ⁰ C according to norm NFT 76-106
Appearance	Solid
FDA Status	Approved under FDA 21 CFR 175.150 For Indirect Food Contact

* Temperature resistance may vary dependent upon substrates and conditions. Please Test.

Packaging

EASY-TAK is available in rolls of 1000 / 2000 / 5000 dots as standard other sizes are available on request.

Storage

Store in a clean dry environment in closed containers between 15 and 35⁰C. When stored under these conditions the product will have a shelf life of at least 1 year.

Health and Safety

This Technical Information Sheet does not constitute a Material Safety Data Sheet.

Before using EASY-TAK please ensure you have received and have read carefully the Material Safety Data Sheet relating to this product (MSDS ref: Easy Tak).

EASY-TAK has very little health and safety concerns offering a product which is non-toxic, non solvented and food approved FDA status.

Fires: Not normally a hazard but in a fire hot melts are combustible; use dry powder or CO2 extinguishers. **TIS No.** 1000 Issued 07/08/2000
